

Stage 6.3 predicted state distributions in F-d space

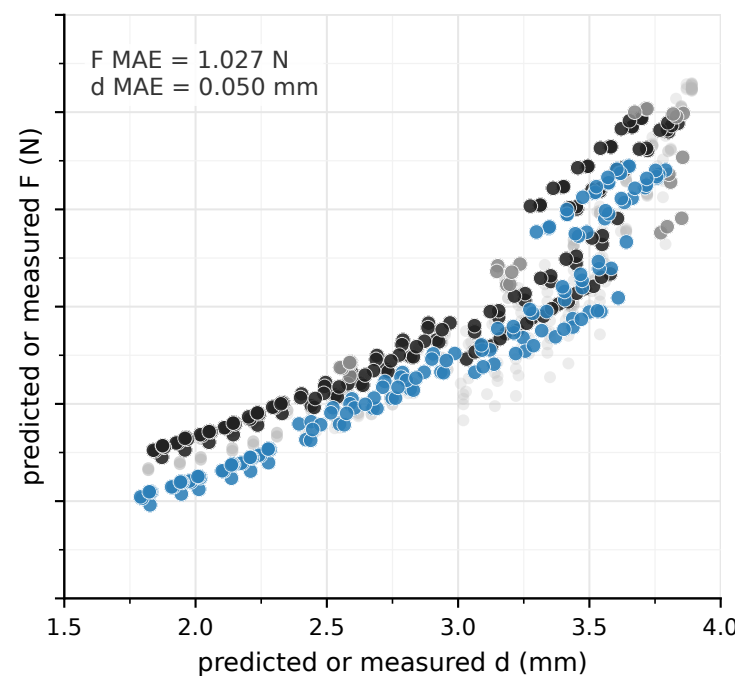

Gray background: measured held-out state cloud. Colored points: model-predicted states (train = 1461, held-out = 312).

● measured states ● predicted direct loading ● predicted return unloading ● predicted preload state

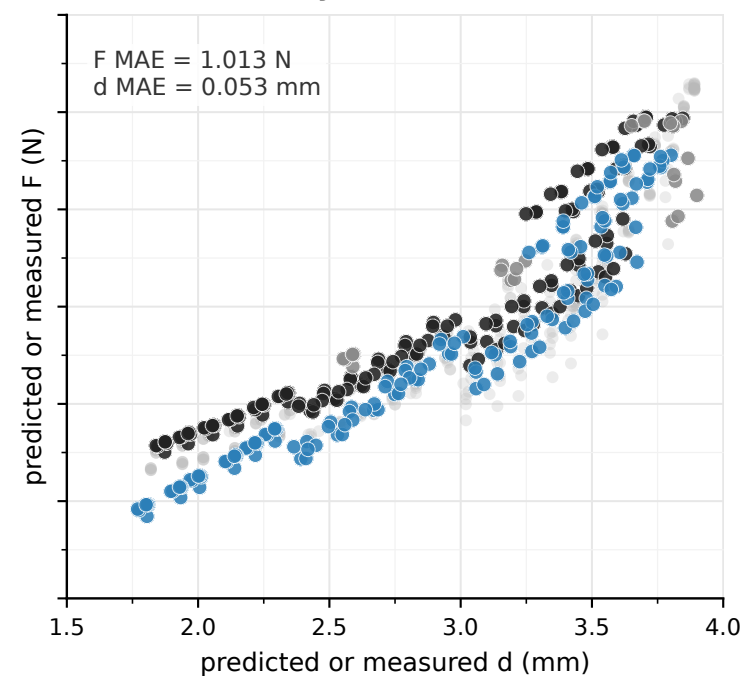

**a Plain magnetic
B only**

**b Path-label
B + branch label**

**c Path-memory
B + path history**

**d Local-ID
B + path history + local jF/jd**
